

## **MOBILE FILING UNIT**

### **ABSTRACT OF THE DISCLOSURE**

A mobile filing unit includes a housing, two tracks horizontally bilaterally mounted inside the housing near the top, two sliding rails respectively slidably coupled to the tracks, a face panel connected between the sliding rails and movable with the sliding rails in and out of the tracks to close/open the housing, and a hanging rack formed of four rod members in the shape of a rectangular open frame and mounted inside the housing below the tracks for the hanging of hanging files.
